

Runnable

```
graph BT; ClientListen[com.example.trainwearapplication.ClientListen] --> Runnable[Runnable];
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'Runnable'. Below it is a larger box labeled 'com.example.trainwearapplication.ClientListen'. A blue arrow points from the bottom of the 'ClientListen' box up to the bottom of the 'Runnable' box, indicating that 'ClientListen' inherits from 'Runnable'.

com.example.trainwearapplication.  
ClientListen
