

ScrollView

```
classDiagram
    class ScrollView
    class ModifiedScrollView["com.example.trainwearapplication.ModifiedScrollView"]
    ModifiedScrollView --|> ScrollView
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'ScrollView'. Below it is a larger box labeled 'com.example.trainwearapplication.ModifiedScrollView'. A blue arrow points from the bottom of the 'ModifiedScrollView' box up to the bottom of the 'ScrollView' box, indicating that 'ModifiedScrollView' inherits from 'ScrollView'.

com.example.trainwearapplication.  
ModifiedScrollView
